

Opportunities

As part of our 'giving back' initiative, we list some of the external investment opportunities offered to us below. However, we make no representation as to their efficacy or potential performance.

Remember:

- investments can go up and down, or even be lost altogether
- that statistically 7/10 start-ups fail within 3 years
- if you are lucky 1/10 might become a 'star'.

Listings are made because they may be of possible interest to sophisticated and qualified investors looking for high risk and high potential upside. Further information must be obtained directly from the company/organisation concerned, we do not correspond on such matters.

For further information on seed funding and Series Funding: A, B, and C see this article from [Investopedia](#)
